

MST BLOCKCHAIN

Privacy Policy

How we collect, use, and protect your information

Effective Date: September 10, 2026

Last Updated: September 10, 2026

Version 1.0

mstblockchain.com

1. Introduction

MST Blockchain ("we," "us," or "our") is committed to protecting your privacy. This Privacy Policy explains how we collect, use, disclose, and safeguard your personal information when you use our blockchain platform, website, mobile applications, developer tools, MCP server (mst-mcp), and related services (collectively, the "Services").

By accessing or using our Services, you agree to the terms of this Privacy Policy. If you do not agree, please discontinue use of our Services.

Note: This Privacy Policy applies to all MST Blockchain products and services, including the mst-mcp documentation server, MST Chain network interactions, the MST SDK, and all web properties operated by MST Blockchain.

2. Who We Are

MST Blockchain operates the MST Chain, an EVM-compatible Layer-1 blockchain network, and associated developer tools and infrastructure. For the purposes of applicable data protection laws, MST Blockchain is the data controller responsible for your personal information.

Contact Detail	Information
Company Name	MST Blockchain
Website	https://mstblockchain.com
MCP Server	https://mcp.mstblockchain.com/sse
Privacy Inquiries	support@mstblockchain.com

3. Information We Collect

3.1 Information You Provide Directly

We collect information you voluntarily provide when you register for an account, use our Services, or contact us:

- Account registration details: name, email address, username, password
- Identity verification documents (KYC): government-issued ID, proof of address (where legally required)
- Communication records: emails, support tickets, feedback forms
- Developer information: organisation name, project descriptions, API usage preferences
- Payment information: billing address, transaction details (payment card data is processed by our payment provider; we do not store raw card numbers)

3.2 Information Collected Automatically

When you interact with our Services, we automatically collect certain technical data:

- Device and browser information: IP address, browser type and version, operating system, device identifiers
- Usage data: pages visited, features used, session duration, click patterns, referral URLs
- Log data: server logs, error reports, access timestamps
- Cookies and similar tracking technologies: session cookies, preference cookies, analytics cookies (see Section 8)
- MCP server interactions: tool calls made to the mst-mcp server, query types (not query content for read-only tools)

3.3 Blockchain Data

Please be aware that blockchain networks are public by design:

- Wallet addresses, transaction data, smart contract interactions, and on-chain activity on the MST Chain are publicly visible and permanently recorded on the blockchain
- We do not control or restrict the visibility of on-chain data
- We may collect and index on-chain data to provide network analytics, explorer services, and developer tooling

Important: Blockchain transactions are irreversible and permanently public. Do not include sensitive personal information in on-chain transactions, smart contract data, or wallet metadata.

3.4 Information from Third Parties

We may receive information about you from:

- Identity verification partners (KYC/AML service providers)
- Analytics providers (aggregated and anonymised)
- Blockchain indexers and network monitoring services
- Social login providers (if you choose to authenticate via a third-party service)

4. How We Use Your Information

We use collected information for the following purposes and legal bases:

Purpose	Examples	Legal Basis
Service Provision	Account creation, network access, SDK delivery, MCP server operations	Contract performance
Security & Fraud Prevention	Detecting abuse, preventing unauthorised access, rate limiting	Legitimate interests
Legal Compliance	KYC/AML checks, tax reporting, responding to legal requests	Legal obligation
Product Improvement	Analysing usage patterns, improving documentation quality	Legitimate interests
Communications	Service announcements, security alerts, product updates	Contract / Consent
Marketing	Newsletters, developer resources, event invitations (opt-in only)	Consent
Analytics	Aggregate usage reporting, network health monitoring	Legitimate interests
Customer Support	Responding to queries, resolving technical issues	Contract performance

5. MCP Server & AI Tool Data

Our mst-mcp server provides read-only access to MST Blockchain documentation. Regarding data handling for MCP interactions:

- The mst-mcp server does not require user authentication and does not collect personal information for documentation queries
- Tool calls (list_documents, read_document, search_documents) are stateless; we do not store individual query histories tied to identifiable users
- Aggregate, anonymised usage metrics (e.g. most-accessed documentation modules) may be collected for service improvement
- When the mst-mcp server is accessed via the Anthropic API or Claude.ai, the AI provider's own privacy policy also applies to that interaction

MCP Privacy: The mst-mcp server is designed to be privacy-preserving by default — no login, no session tracking, no personal data required to access blockchain documentation.

6. Data Sharing & Disclosure

6.1 We Do Not Sell Your Data

We do not sell, rent, or trade your personal information to third parties for their marketing purposes.

6.2 Sharing with Service Providers

We share data with trusted third-party service providers who assist us in operating our Services, subject to contractual data protection obligations:

Category	Purpose	Data Shared
Cloud Infrastructure	Hosting, storage, compute	Technical data, logs
KYC/AML Providers	Identity verification	ID documents, personal details
Payment Processors	Transaction processing	Billing info (not card data)
Analytics Providers	Usage analytics	Anonymised usage data
Email & Comms	Notifications, support	Email, communication history
Security Services	DDoS protection, fraud detection	IP addresses, log data

6.3 Legal Disclosures

We may disclose your information where required or permitted by law:

- In response to valid legal process (court orders, subpoenas, government requests)
- To comply with anti-money laundering (AML) and counter-terrorism financing (CTF) obligations
- To protect the rights, property, or safety of MST Blockchain, our users, or the public
- In connection with a merger, acquisition, or sale of assets (with prior notice to affected users)

6.4 Blockchain Network Participants

The MST Chain operates as a public, decentralised network. Validators, node operators, and other network participants may have access to transaction data as part of normal blockchain operations. This is an inherent characteristic of public blockchain networks.

7. Data Retention

We retain personal information for as long as necessary to fulfil the purposes outlined in this policy, or as required by law:

Data Type	Retention Period	Reason
Account data	Duration of account + 7 years	Legal & audit obligations
KYC/AML records	5–10 years post-relationship end	Regulatory requirement
Transaction logs	7 years	Financial record-keeping
Support communications	3 years from resolution	Quality assurance
Marketing data	Until opt-out + 1 year	Consent management
Technical/server logs	90 days rolling	Security monitoring
Anonymised analytics	Indefinitely	Product improvement

When data is no longer needed, we securely delete or anonymise it. Note that on-chain data cannot be deleted due to the immutable nature of blockchain technology.

8. Cookies & Tracking Technologies

We use cookies and similar technologies on our web properties. You can manage cookie preferences through your browser settings or our cookie consent tool.

Cookie Type	Purpose	Can Opt Out?
Strictly Necessary	Session management, security, core functionality	No (essential)
Performance	Page load analytics, error monitoring	Yes
Functional	Language preferences, UI customisation	Yes
Analytics	Usage patterns, feature adoption tracking	Yes
Marketing	Personalised content (opt-in only)	Yes (default off)

9. Your Rights

Depending on your jurisdiction, you may have the following rights regarding your personal information:

Right	Description	How to Exercise
Access	Request a copy of the personal data we hold about you	privacy@mstblockchain.com

Right	Description	How to Exercise
Rectification	Request correction of inaccurate or incomplete data	Account settings or email
Erasure	Request deletion of your personal data (subject to legal obligations)	privacy@mstblockchain.com
Restriction	Request that we limit how we process your data	privacy@mstblockchain.com
Portability	Receive your data in a structured, machine-readable format	privacy@mstblockchain.com
Objection	Object to processing based on legitimate interests or for direct marketing	Unsubscribe links / email
Withdraw Consent	Withdraw consent at any time where processing is consent-based	Account settings or email
Complaint	Lodge a complaint with your local data protection authority	Contact your national DPA

We will respond to all verified privacy requests within 30 days. We may need to verify your identity before processing requests. We cannot delete data that is permanently recorded on the public blockchain.

10. International Data Transfers

MST Blockchain may transfer and process your personal information in countries other than your country of residence, including countries that may have different data protection laws.

Where we transfer personal data outside the European Economic Area (EEA) or other jurisdictions with transfer restrictions, we rely on appropriate safeguards such as:

- Standard Contractual Clauses (SCCs) approved by the European Commission
- Adequacy decisions issued by relevant data protection authorities
- Other legally recognised transfer mechanisms

11. Children's Privacy

Our Services are not directed at individuals under the age of 18 ("minors"). We do not knowingly collect personal information from minors. If you believe we have inadvertently collected data from a minor, please contact us immediately at privacy@mstblockchain.com and we will take steps to delete it.

12. Data Security

We implement appropriate technical and organisational measures to protect your personal information against unauthorised access, loss, destruction, or alteration. These measures include:

- Encryption of data in transit (TLS 1.2+) and at rest (AES-256)
- Access controls and role-based permissions for internal systems
- Regular security assessments and penetration testing
- Multi-factor authentication for administrative access
- Incident response procedures and breach notification protocols
- Employee training on data protection and security practices

Security Notice: No method of transmission over the internet is 100% secure. While we strive to protect your data, we cannot guarantee absolute security. If you believe your account has been compromised, contact security@mstblockchain.com immediately.

13. Third-Party Links & Services

Our Services may contain links to third-party websites, services, or applications (such as GitHub, block explorers, or partner documentation sites). This Privacy Policy does not apply to those third parties. We encourage you to review the privacy policies of any third-party services you interact with.

When you use the MST SDK or MCP server in conjunction with third-party AI providers (such as Anthropic Claude), those providers' terms and privacy policies govern their handling of your data.

14. Changes to This Policy

We may update this Privacy Policy from time to time to reflect changes in our practices, technology, legal requirements, or other factors. When we make material changes, we will:

- Update the "Last Updated" date at the top of this document
- Notify registered users via email or in-app notification
- Post a notice on our website for at least 30 days before the change takes effect

Your continued use of our Services after the effective date of any changes constitutes your acceptance of the updated Privacy Policy.

15. Governing Law

This Privacy Policy is governed by and construed in accordance with applicable data protection laws. For users in the European Union/EEA, this includes the General Data Protection Regulation (GDPR). For users in California, this includes the California Consumer Privacy Act (CCPA) and California Privacy Rights Act (CPRA).

16. Contact Us

If you have questions, concerns, or requests regarding this Privacy Policy or our data practices, please contact us:
